SUMMARY

I am a computer science engineering student at Indian Institute of Information Technology, Dharwad. My Objective is to explore and execute “my learning and explorations” for finding solutions of the real-world problems in the field of technology which motivates me to explore this creative world with my own creative paths, also building a “product” which will be helpful to take “my creative ideas” to the level of executions.

EXPERIENCE

The Cloud Sys | Full Stack Development Intern | August 2021 – October 2021

1. Developed a Web Application using Flutter and Firebase.
2. Collaborated in a team enhanced Communication Skill and Problem-solving ability as an addition.

DevIncept | Machine Learning Training | June 2021 – July 2021

1. Attended a One-month intensive Machine Learning Training Program.
2. Developed Cab-fare predictor using various machine learning models and tested accuracy.

EDUCATION

Indian Institute of Information Technology | Bachelors Computer Science

Dharwad, Karnataka | August 2019 - May 2023 | GPA:7.85 (Current)

St Arnold H.S School, Vijay Nagar | Senior Secondary

Indore, Madhya Pradesh | August 2018 - May 2019 | PERCENTAGE:83.4

SKILLS

Programming Languages

Python, JavaScript, Dart, C++, C, SQL

Libraries/Frameworks

ReactJs, Flutter, RestAPI, NodeJS, ExpressJs, ElectronJs

Tools / Platforms Databases / Other

Data Structures and Algorithms, MySQL, Postman, MongoDB, NoSQL, Firebase, Communication, Leadership, Git and GitHub

PROJECTS

Camprec | ReactJs, CSS, Nodejs, ElectronJs, MongoDB

1. Built An online Portal for College campus drive and students' applications. Three different logins help students, colleges, and companies for easy go. It helps on-campus and off-campus process easy-going.
2. Collaborated in a group of 5 Software Engineers to build this online portal.

CERTIFICATION

HTML, CSS, AND JAVASCRIPT FOR WEB DEVELOPERS

Coursera | September 2020

PYTHON FOR EVERYBODY SPECIALIZATION

Coursera | May 2020

CRASH COURSE ON PYTHON

Coursera | May 2020
